

**Subject:** Maintenance Manual in English language (German language manuals are not affected).

**Effectivity:** LS6, Versions LS6-c18 and LS6-18w only, all serial numbers with Manuals in English language.

**Accomplishment:** Before next Annual Inspection or work at inner flaperons.

**Reason:** Maximum moment of inner flaperon 10.18 kgcm <141.37 inoz> corresponded still to LS6-c value, corrected to 9.00 kgcm <124.99 inoz>.

**Material and Instructions:** By the operator:  
Exchange pages 0-2, 0-3 and 6-1 of Maintenance Manual against Edition Jan. 06, 2000.

**Weight and Balance:** Not affected.

**Remarks:** Accomplishment by the Operator.

Accomplishment must be entered into page 14-1 TB-AD-Accomplishment List in Maintenance Manual by inspector during next annual inspection.
